Renan Souza

Bio

Renan Francisco Santos Souza holds a Ph.D. (2019) and an M.Sc. (2015) in Computer Science from COPPE/Federal University of Rio de Janeiro (UFRJ), and a B.Sc. in Computer Science from UFRJ (2009-2013). Since 2015, he works at IBM Research Brazil, where he is a Research Scientist in the Intelligent Cloud Technologies group. He has been working both as a software engineer and a researcher in several projects since 2010. During his B.Sc., he spent a year at the computer science department at Missouri State University and did a summer internship at Stanford University in the SLAC National Laboratory. During his Ph.D., he was a visiting researcher with the Scientific Data Management team at Inria, Univ. Montpellier, France in 2019. In 2017, he won the best M.Sc. thesis award from SBBD, the main conference on data science in Latin America. He researches large-scale data science and data engineering techniques to support Artificial Intelligence systems.

Research Interests

Large-scale Data Science and Data Engineering • Parallel Workflows • Data Provenance • Big Data Analytics • High Performance Computing in Clusters and Clouds • Machine Learning

Education

- Ph.D. in Computer Science, Federal Univ. of Rio de Janeiro, Brazil
 Sep 2015 Dec 2019
 Supervised by Marta Mattoso and Patrick Valduriez
 - Title: Supporting User Steering in Large-scale Workflows with Provenance Data
- Visiting Ph.D. Student, Inria/Univ. Montpellier, France
 Supervised by Patrick Valduriez
- M.Sc. in Computer Science, Federal Univ. of Rio de Janeiro, Brazil Jan 2013 Jul 2015
 Supervised by Marta Mattoso
 - Title: Controlling the Parallel Execution of Workflows Relying on a Distributed Database
- Computer Science exchange student, Missouri State University, U.S.
 Jun 2011 Jun 2012
- B.Sc. in Computer Science, Federal Univ. of Rio de Janeiro, Brazil Jan 2009 Dec 2012
 Supervised by Maria Luiza Machado Campos
 - Title: Linked Open Data Publication Strategies: An Application in Network Performance Data (in pt)
- Technical Degree in Information Systems, Lemos de Castro
 Jan 2005 Dec 2007

Experience

IBM Research
 Research Scientist, Data Science and Engineering
 Apr 2015 – present
 Rio de Janeiro, Brazil

As a Research Scientist (since 2019), he leads R&D projects in large-scale data science and data engineering to support Artificial Intelligence systems running on hybrid cloud and cluster environments with highly distributed and heterogeneous applications, data, and users. My work is applied to solving data- and Al-related problems in different industries, such as energy, financial, and cheminformatics. As a Research Software Engineer (2015–2019), he participated in several R&D projects with clients in the energy field by developing techniques and systems for large-scale data integration of Al systems running on clusters and clouds. He also led the Cloud DevOps team to develop conversational Al systems. As a Software Engineering intern (2015), he designed and implemented big data and machine learning solutions to analyze streaming social data.

SLAC National Accelerator Laboratory, Stanford Univ.
 Research Software Engineering intern

May 2013 – Dec 2014 Menlo Park, CA

Developed a project to build a cloud platform that uses semantic web, big data, and data warehousing techniques to store, retrieve, visualize, and publish structured data about internet performance worldwide, enabling a rich understanding of information about the Internet quality around the world.

 CAPGov COPPE/UFRJ Software Engineer Dec 2011 – Sep 2014 Rio de Janeiro, Brazil

As a software engineer (2013–2014), he led the development of a system that helped the Brazilian population to have easy access to information about public services provided by the Federal Government. He also participated in the development of a system to publish linked open data of the Brazilian Federal Register ("Diário Oficial da União") on the semantic web using agile methodology, ontology data modeling, and natural language processing.

As a Software Engineering intern (2011–2013), he participated in several R&D web systems for the Brazilian Federal Government.

 Federal Univ. of Rio de Janeiro Software Engineering intern

Jan 2010 - Jul 2011 Rio de Janeiro, Brazil

Developed a system to integrate data warehouse environments with structured and unstructured data to enable more intelligent and flexible information reports.

PetrobrasIT Intern

May 2007 - May 2008 Rio de Janeiro, Brazil

Helped to implement features and provided maintenance for web systems to support Petrobras employees.

Technical Knowledge

- Languages: Python, Java, C, C++, Shell scripting, NodeJS, Scala, Lua
- Relational DBMS: PostgreSQL/PostGIS, DB2, DashDB, MySQL, MySQL Cluster, MS SQL Server
- **NoSQL DBMS**: MongoDB, AllegroGraph, Jena, Virtuoso, Sesame, Cloudant, CouchBase, Redis, Impala, Elasticsearch, HBase, Hive, Apache Ignite
- Heterogeneous Data Management: Data Integration, Multi-database Queries, Polystores, Foreign Data Wrappers
- Big Data Frameworks: Apache Spark: RDD, DataFrames, Streaming, MLib, GraphX, GraphFrames;
 Hadoop Ecosystem
- Message Brokers: Kafka, RabbitMQ
- Data Science/ML Technologies: Pandas DataFrames, Jupyter Notebooks, Numpy, SciPy, Tensorflow, and PyTorch
- O Big Data Cluster Deployment: YARN, Mesos, Standalone deployment
- Business Intelligence: MS SQL Server BI developer studio, Pentaho Solutions, Talend;
- Semantic Web Tools/Languages: OWL, RDF, SPARQL, Protege
- Distributed and Concurrent Programming: MPI, OpenMP, CUDA, Data-centric distributed and parallel programming
- o Cloud and Cluster computing: VMs, Dockers, Kubernetes, OpenShift, HPC Clusters
- o DevOps: Containers, Kubernetes, OpenShift, CI/CD Pipelines, GitHub, Travis, Jenkins
- Web Development: Python Flask/UWSGI, Java EE, Tomcat/JBoss, Spring Boot

Languages

- English Full proficiency
 - Missouri State University, U.S.
 Scientific English for Graduate Students

Jun 2012 - Aug 2012 (150h)

o Cultura Inglesa (English Culture), Rio de Janeiro, Brazil

2001 - 2009

- o Portuguese Native
- o Spanish Fluent reading, intermediate speaking and understanding, limited writing

Grants and Awards

SBBD Best M.Sc. Thesis Award	2017
 Honored Mention at SBBD on the paper 	
Spark Scalability Analysis in a Scientific Workflow	2017
o CAPES M.Sc. Grant	2013 - 2014
Brazil Science Mobility Grant - Missouri State University	2012 - 2013
 Scientific Initiation Grant - Federal Univ. of Rio de Janeiro 	2010
